**Subject: Butte County General Plan 2030 and Briefing Book**

Honorable Chair and Members of the Tehama County Board of Supervisors:

A comprehensive update of the Butte County General Plan – Butte County General Plan 2030, has been officially underway since September 2006 and is scheduled to conclude in September 2009, with the adoption of a new Butte County General Plan, Zoning Ordinance and Environmental Impact Report (EIR).

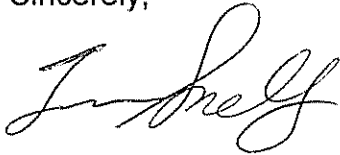

Part of this process includes the identification of existing conditions and issues that need to be addressed by the update process. Butte County has also prepared a Butte County General Plan 2030 Existing Conditions Briefing Book (copies enclosed), which provides summary information on many different aspects of Butte County and functions as a reference guide for use during community workshops and meetings.

As part of this process, I am interested in coordinating with your staff on any issues that could benefit from a regional approach between our two (or more) counties, and for which the Butte County General Plan 2030 process could help to address in the areas of transportation, groundwater resources, biological resources, and air quality to name a few. Additionally, information is requested on any project in your county that, due to its size, use, or location, may warrant consideration by the Butte County General Plan 2030 planning and EIR process. Please provide any information or comment to the following:

I am providing this same request and copies of the enclosed Briefing Books to each of Butte's six neighboring Counties (Colusa, Glenn, Plumas, Sutter, Tehama, and Yuba). This outreach is a very important aspect of our General Plan process and your cooperation and help is appreciated. Should you have any questions please do not hesitate to contact me at 530-538-6821.

Sincerely,
