

TOPIC	Input Text
Greenlines & Buffers	Add Chico Greenline question
	Adjust to natural boundaries
	Other modifications?
	Change Chico Greenline to 300-foot buffer (rather than line)
	Develop buffer around Neal Road landfill to protect uses (also related to #18)
	Recognize FIFRA fed. Regulation re: pesticides will impact all of these things
	Involve community in any discussion about changes to Greenlines/buffers
	Should setting Greenlines be done by initiative rather than through GP?
New Development & Housing	#3 State law about certain percent affordable housing?
	Design standards are helpful -- add response in #2 to develop design standards with illustrations
	Should capture design in terms of terrain (i.e.: viewsheds)
	Need option: should have all options for addressing affordable housing available for each project (e.g. fee in-lieu of and other options)
	#3 Add option: maintain adequate supply of residential land and adequate infrastructure
	Add question: How does County develop a General Plan that facilitates fiscal health of County?
Regional Coordination	Add public meetings between City and County
	Identify model that is working
	"Hold annual and more frequent meetings" -- should be done with public access TV
	ID coordinating activities outside County boundaries
	Consider Blueprint idea
	Encourage broader regional planning by demonstrating economic benefits (e.g. grants)
	Explore economic benefits of regional planning
	County/city provision of services in spheres -- problem that don't provide services and approve development
Agriculture	Need to understand priorities for water allocation related to agriculture
	Question: Should we establish a water budget, and what should the priorities be? (Could be Water Resources too)
	Need to explain further (all questions should be self-evident); e.g. "program 2.2" -- what is it?
	#6: No mention of Williamson Act (WA). How does WA relate to these items?
	Add policy re: WA
	#6, bullet 2: Does not support ag; need to rephrase.
	Add alt. to #13 re: water budget
	#7: Give bookends: Increase min. parcel sizes to 40 acres (or other size)
	#9: Support existing grower co-ops that are in Butte County
	#6: Question: Should the County... -- yes/no answer
#9: Allow 5-acre parcels for specialty crops	
Should support small farmers	
Place small farms around greenlines to serve as transition	

TOPIC	Input Text
Agriculture	Need to assess what are productive agricultural lands
	Should we have a definition of economic agricultural production?
	#7: Need contrary to protecting ag lands for non-viable ag.
	General: Need way to identify relative importance of the options (ranking methodology)
	Need to ensure that development leaves certain amount agricultural lands
Scenic Highways	Identify scenic highways to help people know where they are
	Ponderosa Way is a federal scenic highway - this is a resource to explore
Trails	Coordinate with cities to connect to their trail systems
Natural Resources & Habitat	#12, bullet 3 - define "larger"
	Add policy to support State/federal guidelines that protect natural resources (so that don't duplicate)
	Require all legal documents from State/federal offices prior to mailing a final planning decision
	#12: Coordinate with cities and other jurisdictions
	Support development that helps to preserve important habitat areas
	Certain amount of habitat mitigation to occur in county
	Resource depletion surcharge for mining
Water Resources	Strike "ground" in #13; change to water in general
	Should be a section devoted to groundwater
	#13: First bullet not adequate, we don't know impacts of certain percent drop in water levels. Need science to guide us of true scientific impacts of pumping water.
	Need to reflect idea that we need to deal with other counties that share our groundwater to understand costs of pumping
	"Require metering of wells" -- explain why
	Should County be involved in encouraging recharge of areas for habitat/environmental?
	Should increase the amount of recharge rather than reducing loss of recharge
	How to address contamination with drilling of new wells
	Require water quality testing prior to drilling?
Transportation	#15: How should the County deal with roads?
	Add Q: Should County implement program to ensure capacity in place prior to development
	Need regional approach to transportation
	Restore historic funding (not just increase)
	#17: Encourage satellite retail development
	Develop additional bicycle routes that are safe
	#11: Distinguish that mountain bikes
	Include bike routes under #17
	#17: Air emissions budget -- plan to reduce automobile traffic to meet goal
	Should we have a plan to address how to reduce greenhouse gases?
Should we try slow streets? As alternative to fast routes connecting same routes	

TOPIC	Input Text
Utilities & Public Services	#18: Bullets #1 and #3 -- too similar - either make one or distinguish Strike "services" from bullet #2 #18: Rephrase so that one for infrastructure and one for services Need Q: Shall the County explore new funding sources for utilities of police, fire and parks? Distinguish between future development and existing problems New Q. - How should the County work with schools to minimize impacts on schools?
Parks & Recreation	No comments
Airports	No comments
Economic Development	No comments
Green Building & Sustainability	Global warming -- add priority re emissions budget Global warming -- address retrofitting: "incentivize and encourage"
