5:40 pm

General Plan 2030 Ad-Hoc Subcommittee  
and CAC Discussion

Chair of the Board/Supervisor Jane Dolan

Supervisor Curt Josiassen

# CAC Role/Procedures/Guidelines

## CAC Purpose

- Charged to provide valuable community perspective for the GP 2030 process through the input of ideas,
- review of draft and complete work, by providing feedback to County staff and consultants, and
- by building community support for the plan that you are helping to create.

# CAC Role/Procedures/Guidelines

## CAC Role

- The Committee is a reviewing body that provides community input on the eight major work product tasks associated with the General Plan 2030 process.

# CAC Role/Procedures/Guidelines

## CAC Input Process

- Since the Committee is charged with providing input from a variety of perspectives, formal votes will not be taken. Instead, the Committee, working with county staff and the consultant, will work to develop a consensus on issues where possible. Staff will forward and present to the Planning Commission and Board of Supervisors all points of view expressed by Committee members, including both areas of consensus, and areas of disagreement.

# CAC Role/Procedures/Guidelines

## CAC Member Attendance

- Committee members are expected to regularly attend Committee Meetings and Public Workshops. However, it is understood that on occasion, a Committee member may not be able to attend a meeting. When this occurs, a Committee Member should still review the meeting notices provided to them and review all materials distributed for the missed meeting, in addition to the meeting notes for the missed meeting. If a member can no longer attend or no longer wishes to participate as a Citizen Advisory Committee member, they must inform Butte County Development Services Staff.

# Next Meetings

- January 17, 2008 (Water/HCP)
- Workshop Series #4-2A starts April 10, 2008
- #4-2B (April 11<sup>th</sup>?) Discussion
- #4-2C (April 12<sup>th</sup>?) Discussion
