## MEMORANDUM

DATE April 18, 2008  
TO Citizens Advisory Committee Members  
FROM DC&E  
RE **Errata for 4/24 Chico-Area Meeting**

There is an error in the Alternatives Evaluation Report that pertains to the study areas we will be discussing at the April 24 meeting in Chico. Please take note of this as you prepare for the upcoming meeting.

- ◆ In the water supply evaluation for Study Areas 16 and 17, the Durham Mutual Water company was identified as a possible water service provider for development under the alternatives. The text should have noted that this water district currently only provides agricultural water; it does not provide municipal or industrial water. Because it would not be feasible to expand this service in the future to serve non-agricultural users, the scores for the water supply analysis should be changed to the following:
  - Alternative 3 for Study Area 16 should receive a D because it allows a significant amount of development without an identified water supply. There would be no new development under Alternatives 1 and 2, so water supply is not an issue.
  - Alternatives 1, 2 and 3 for Study Area 17 should receive a D because they allow a significant amount of development without an identified water supply.
