**MEMORANDUM**

DATE April 28, 2008  
TO Citizens Advisory Committee Members  
FROM DC&E  
RE **Errata for May I Meeting**

During the April 24 CAC meeting in Chico, Study Area 17 (Durham) was discussed. The errata memo for that meeting indicated that the water supply evaluation in the Alternatives Evaluation Report had incorrectly identified the Durham Mutual Water Company as a possible water service provider for development under the alternatives. The Durham Mutual Water Company only provides agricultural water, and the memo therefore indicated that the water supply scores for Alternatives 1, 2 and 3 should have been D's. However, this memo overlooked the existence of a municipal water supplier serving the western portion of the study area: the Durham Irrigation District. The Alternatives Evaluation Report correctly indicated that the Durham Irrigation District is located within a portion of this study area, and that it could serve development under the alternatives. Therefore, the water supply scores for Alternatives 1, 2 and 3 were correctly assigned as B's in the Alternatives Evaluation Report because the development would be located within and adjacent to an existing service provider.
